HISTORY OF EXCELLENCE

Offering autonomy to financial professionals has been a core tenet of our business from the start.

Formed in 1989 through the merger of Linsco and Private Ledger (founded in 1968 and 1973, respectively), LPL was built on the belief that objective financial guidance benefits everyone—and financial professionals are best able to serve clients when they have access to innovative tools and solutions that work for them. Remaining strong in this conviction, we formed a political action committee to lobby in Washington on behalf of financial professionals and their clients, helping keep the right to objective advice a constant in our industry.

As we continue to grow, we regularly update our service offerings, including new platforms and opinions to ensure financial professionals, banks, and credit unions have the right tools to meet your needs. Our continued investments in technology and creating efficiencies have helped us become a leader in the industry, and a trusted partner for your financial professional.

Today, we provide comprehensive support and a broad range of innovative business solutions to a network of more than 16,000 financial professionals. We've built a reputation for customized service and personal attention, and our research and conferences, which provide your financial professional with educational and training opportunities, are renowned throughout the financial industry. As we grow and evolve, we remain committed to the philosophy of objective guidance that has propelled our success and will continue to shape our future.
